Landscape Construction Project Manager

Description

Position Summary

We are seeking a skilled **Landscape Construction Project Manager** to lead multiple commercial and residential projects from inception to completion. This position requires expertise in irrigation systems, hardscape installations, landscape lighting, and plantings. The successful candidate will oversee on-site crews, coordinate with clients and vendors, and ensure projects are delivered on schedule, within budget, and to quality specifications.

Responsibilities

Key Responsibilities

- **Project Management and Supervision**
 - Supervise the field construction of commercial and residential landscape projects.
 - Ensure projects are completed on schedule, within budget, and to quality specifications.
 - Hire, train, manage, and lead construction crews of 3-6 people while embodying the company's values of Respect, Integrity, Team, Customer Centricity, Expertise, Agility, and Grit.
- **Irrigation and Hardscape Expertise**
 - Design, build, and layout multi-zone irrigation systems based on meter size, pressure, and flow (GPM).
 - Oversee the installation of hardscapes, retaining walls, landscape lighting, and plantings.
- **Scheduling and Coordination**
 - Develop and update project schedules, labor requirements, and material needs as projects progress.
 - Coordinate with subcontractors and vendors to ensure smooth project execution.
- **Documentation and Budget Management**
 - Read and interpret project contracts, landscape plans, specifications, and other relevant documents.
 - Use a workflow management system to account for crew time, labor, and job costs.
 - Review project budgets versus actual costs and collaborate with finance and operations leaders to address trends and corrective actions.
- **Client and Vendor Communication**
 - Maintain positive relationships with clients, vendors, and the community.
 - Update stakeholders on project schedules, progress, and changes.

Qualifications

- **Education and Experience:**
 - Proven experience in landscape construction project management, including irrigation and hardscape installations.
 - Ability to read and interpret landscape plans and specifications.
- **Skills and Competencies:**
 - Expertise in designing multi-zone irrigation systems and supervising landscape installations.
